**INTERNAL QUALITY ASSURANCE CELL**

---

**Session 2018-19**

**Institution Distinctiveness**

Our college is a women's college . Our motto is upkeeping of the dignity and empowerment of women. Our mission is specifically caters to the education need of the rural girls. Most of them come from poverty stricken families. Many of them are the first member of the family to step into an education institution. . So the aim of our institution is to bring them to the mainstream of the society from the grassroot level. Majority of students are pursuing their studies even after marriage. Our faculties always try to inspire and motivate them at every point of time. Necessary inputs are provided by our institution for their self employment, skill development. Our institution does not focus only on education to be self employed but rather it provides all opportunities to make them self- sufficient.

Alongwith academic activities our institution also organises several Gender Sensitization Programmes, Environment Based programmes, programmes on Ethics and Moral values ,Health Awareness Programmes in order to enhance the holistic development among our students .

The institution measures the success of its performance not only by the students graduated but also educates them to adopt themselves in every sphere of life.
